INTRODUCTION

01

A newly enlivened
development in Newbury,
The Connection champions
people, planet and a
pioneering spirit.

Enter a new business ecosystem.

452,155 sq ft of office space and 38 acres of greenery and
water create an inspiring environment to help you thrive.

Three available office buildings offer unique opportunities,
from one desk to a company HQ, for every type of business
to bloom.

Building One provides a collaborative hub, with co-working
space, meeting rooms and the option to occupy your own
floor or wing; its café and basement gym is open to everyone.
Building Two is a standalone office set-up for a company
HQ, while Building Three is a blank canvas to be adapted
based on the requirements of prospective users.

ROOTED IN INNOVATION

NEWBURY

02

An affluent town primed for progress, Newbury is set across waterways and defined by quintessential British charm.

Ranked as one of the top 10 small European Cities of the index, Newbury is an established commercial and retail hub recognised for its economic strengths. Already home to Vodafone, who've helmed their business here for the past four decades, Newbury has a rich historic past and a thriving future.

Cyclists weave through the cobbled streets, boaters take to the water and visitors bask in the Baroque and Tudor architecture.

Well Connected

A picturesque market town that simultaneously serves as the commercial hub for this region of West Berkshire, Newbury is the perfect base to reflect The Connection's ethos.

A 6-minute drive to the railway station and direct access to the M4, A34 and Knowledge Corridor, Reading, Oxford, London and beyond make The Connection easy to reach by car, train and bus from the UK's top science, innovation and financial hubs.

NEWBURY

-  6 mins from The Connection
-  6 mins dedicated bus service from The Connection
-  49 trains to Reading each day
-  53 trains to London each day

READING

-  28 mins from The Connection

SOUTHAMPTON  40 mins

Retail, commerce and culture combine to bring contemporary character to Newbury's historic centre.

Set on the banks of the River Kennet and Kennet and Avon Canal, this 'micro city' is alive with independent shops, eateries and a variety of cultural centres for entertainment and exploration.

Originally a key player in the cloth-making trade, the area is now well known for its equestrian excellence, with Newbury Racecourse and world-class racing stables central to the culture here.

Newbury Town

Newbury Racecourse

Newbury Town

Highclere Castle

The Berkshire Downs

A hotspot for TV and film settings, the area is home to the 17th-century Highclere Castle, otherwise known as Downton Abbey, and its surrounding estate and park, landscaped by Capability Brown in the 18th century.

The Berkshire Downs, part of the North Wessex Downs Area of Outstanding Natural Beauty, offer further connection with nature. Stroll through the rolling hills and take in the iconic Uffington White Horse, a prehistoric hill figure carved into the chalk.

Surrounded by
innovative businesses
in Newbury.

THE CAMPUS

03

Immersed in nature,
geared for connections
and innovation.

Built for work/life balance.

Created to co-exist with the habitats that surround it, The Connection is home to office spaces to make your own.

Rich in natural light and designed to adapt to accommodate the needs of your company, the buildings at The Connection encourage cross-pollination with the wider business community. Extensive on-site parking, secure access and a suite of amenities and wellness facilities cater to the needs of the modern worker.

On-site amenities foster wellbeing and collaboration.

Dedicated bus to and from Newbury station

16 e-bike charging docks and electric car charging points

Pop-up food stalls

The Loop, a 1.3km walking/running route

Gym and fitness studio

External meeting points

Sunken garden

Café with outdoor seating

Car park ratio 1:219 sq ft

3 meeting pods at The Clearing

38 acres of landscaped grounds

Collaboration and co-working space

150 secure cycle spaces

19 showers

ROOM TO GROW

An adaptive environment.

Building One offers hot desks, meeting rooms, conference spaces and zoom booths at Lower Ground level allowing for every type of work style. Stepped seating, lounge areas and a sunken garden are perfect for conversation and contemplation.

Drink stations, outdoor break-out zones and speed gates for increased security and swift access complete the package.

Food for thought.

For that morning caffeine fix, quick bite or afternoon catch-up, the on-site café has room for 32 covers, as well as a servery for food preparation. In warmer weather the covered outdoor seating area adjacent to the waterfront is ideal for leisurely lunches and business coffee meetings.

OUTSIDE MEETINGS MADE BETTER

The Clearing.

Three external meeting pods with views of the green surrounds provide room for between 2 and 20 people to come together in a private setting, with a fourth kitchenette and bathroom pod offering a full set of facilities. Additional room to accommodate food trucks and stalls.

POD 01

Capacity for 16 people.

POD 02

Capacity for 20 people.

POD 03

Capacity for 18 people.

CELEBRATIONS &

EVENTS

Room to accommodate food trucks and stalls, with access to a kitchenette and bathroom facilities, this area is equipped to host occasions big and small.

Bring the outside in to your workday.

Wellbeing, built in to work, rest and play.

Designed for form, function and to facilitate health and balance, the topography of the campus features dense woodland, a memorial garden, verdant follies and a plethora of new planted areas to improve biodiversity and add vibrancy to the environment.

Fresh perspectives.

Alongside the office spaces, outdoor seating areas are set up for casual meetings, collaborative catch-ups or space to simply reflect. Natural materials blend seamlessly with the surrounding greenery to create an organic indoor-outdoor flow.

Designed to evolve.

At every turn, the shape of the surroundings is engineered to encourage movement around the campus. The existing bridge is being enhanced. New tree planting is taking place to surround the structures. Biophilia is amplified inside and out. Sunken gardens will sit inside interiors.

STRIKING A BALANCE

Office environments enhanced for health and wellness.

An on-site gym and multi-use studio offer space to put fitness first, with changing rooms, showers with towel service, and a drying room with ironing station accessible to everyone.

The Loop is the perfect place for a stroll or run in the open air.

Best-in-class cycle storage facilities provide secure spaces to store bikes, scooters and charge e-bikes. The additional Bike Surgery allows those who cycle to work to stay on top of maintenance.

SUSTAINABILITY

04

REUSE, REFURBISH, REIMAGINE

Sustainable practices were central to The Connection's lifecycle from the very beginning, with the transformation of existing buildings to preserve the resources already available.

This consciousness in construction extends through every element of the campus, sowing the seeds for a future that benefits the climate and the community. Electric-only power minimises carbon footprint. Efficient and user-optimised light, heating and cooling technology minimises spending and sets the foundation for a spirit of wellbeing, bolstered by green and social spaces for a host of natural benefits.

24%
REDUCTION IN WHOLE LIFE CARBON EMISSIONS

The economically and environmentally sound choice.

LOW IMPACT

Buildings were refurbished not demolished, reducing carbon emissions and minimising construction-related waste in the process.

RENEWABLE & RESILIENT

Electric-only power means the site can run on a tariff that uses only renewable energy, while innovative tech means it's future-proofed.

ENERGY EFFICIENT

Sustainable technology used in the heating, ventilation, cooling and LED lighting of the campus keep the required power resources to a minimum.

ELEMENTAL DESIGN

The open atrium and staircase design promotes active air circulation around the building, while openable windows and strategic planting allow for further connection to nature.

GREENER LIVING

Strong biophilic design equates to a 10% net gain in biodiversity across the campus. The Loop running route, on-site gym, cycle storage and outdoor space encourage activity at every turn.

The lower whole life Carbon solution.

A refurbishment that enhances the building specification and improves functionality and user experience while limiting its Carbon impact.

Whole life Carbon over 60 year's

829 KG CO₂e/m²

1,085 KG CO₂e/m²

■ Refurbished Scenario □ New Build Scenario

Target accreditations

compared to a new build scenario.

BUILDING THREE

07

READY FOR
A BESPOKE FIT-OUT.
BRING YOUR
VISION TO LIFE.

Building Three

Cultivate what comes next.

Stripped back to the bones, Building Three is primed for an organisation to adapt to their own needs.

This flexible structure means the occupants can imbue the space with unique character and specialised functionality. Office, lab, technical space or workshop, whatever is required can be made possible here, in an ideal location for taking advantage of all the campus has to offer.
